

VERIFICATION OF ADHD

The Disability Support Service (DSS) provides academic services and accommodations for students with diagnosed disabilities. The documentation provided regarding the disability diagnosis must demonstrate a disability covered under Section 504 of the Rehabilitation Act of 1973 and Title II of the Americans with Disabilities Act (ADA) of 1990. The ADA defines a disability as a physical or mental impairment that substantially limits one or more major life activities. In addition, in order for a student to be considered eligible to receive academic accommodations, the documentation must show functional limitations that impact the individual in the academic setting.

DSS requires current and comprehensive documentation in order to determine appropriate services and accommodations. The outline below has been developed to assist the student in working with the treating or diagnosing healthcare professional(s) in obtaining the specific information necessary to evaluate eligibility for academic accommodations.

A. The healthcare professional(s) conducting the assessment and/or making the diagnosis must be qualified to do so. These persons are generally trained, certified or licensed psychologists or members of an appropriate medical specialty.

B. All parts of the form must be completed as thoroughly as possible. Inadequate information, incomplete answers and/or illegible handwriting will delay the eligibility review process by necessitating follow up contact for clarification. (See C. for exception)

C. The healthcare provider should attach any reports which provide additional related information (e.g. psycho-educational testing, neuropsychological test results, etc.). If a comprehensive diagnostic report is available that provides the requested information, copies of that report can be submitted for documentation instead of this form. *Please do not provide case notes or rating scales without a narrative that explains the results.*

D. The Healthcare Provider, after completing this form must sign it, complete the Healthcare Provider Information section on the last page, or attach a current comprehensive diagnostic report, and mail or fax it to the address provided in our letterhead. The information you provide will not become part of the student's educational records, but it will be kept in the student's file at DSS, where it will be held strictly confidential. This form may be released to the student at his/her request. In addition to the requested information, please attach any other information you think would be relevant to the student's academic adjustment.

If you have questions regarding this form, please contact DSS. Thank you for your assistance.

- Often fails to give close attention to details or makes careless mistakes in schoolwork, work or other activities.
- Often has difficulty sustaining attention in tasks or play activities.
- Often does not seem to listen when spoken to directly.
- Often does not follow through on instructions and details to finish schoolwork, chores, or duties in the workplace (not due to oppositional behavior or failure to understand instructions).
- Often has difficulty organizing tasks and activities.
- Often avoids, dislikes, or is reluctant to engage in tasks (such as schoolwork or homework) that require sustained mental effort.
- Often loses things necessary for tasks or activities (e.g. school assignments, pencils, books, tools, etc.)
- Is often easily distracted by extraneous stimuli.
- Often forgetful in daily activities.

Hyperactivity and Impulsivity:

- Often fidgets with or taps hands or feet or squirms in seat.
- Often leaves seat in situations when remaining seated is expected (e.g., leaves his or her place in classroom, in the office or other workplace, or in other situations that require remaining in place).
- Often runs about or climbs in situations where it is inappropriate. (May be limited to feeling restless).
- Often unable to play or engage in leisure activities quietly.
- Is often "on the go," acting as if "driven by a motor" (e.g., is unable to be or uncomfortable being still for extended time, may be experienced by others as being restless or difficult to keep up with).
- Often talks excessively.
- Often blurts out an answer before a question has been completed (e.g., completes people's sentences; cannot wait for turn in conversation).
- Often has difficulty waiting his or her turn (e.g., while waiting in line).
- Often interrupts or intrudes on others (e.g., butts into conversations, games, or activities; may start using other people's things without asking or receiving permission; intrude into or take over what others are doing).
